Brian;

Thanks for the update, that sounds like a plan.

Note, TCEQ has not received any report(s) on the new data collected last fall. Please forward me any reports or data collected to include in our files.

Sincerely;

Phillip Winsor, PE

Philip

Thank you for your comments. EPA has decided to have EPA's contractor to start work on the Risk Assessment for AOC 4 and AOC 5. EPA believes that there is currently enough data based on the Phase I RI report conducted by NORCO in 2007 and the new data collected by EPA in September 2013 to conduct a risk assessment of the dock area. I will forward TCEQ's comments to our contractor to make sure TCEQ's comments and concerns are addressed in the risk assessment of AOC 4 and AOC 5.

Thanks

Brian W Mueller RPM
